been offering a unique spectrum of dining concepts including Carmine's Family Style Italian Restaurants to patrons for over twenty years. Prior to Compeat, Alicart utilized separate systems to manage their accounting and inventory control. After replacing their old systems in 2011 with Compeat Advantage's integrated inventory control and accounting, Alicart started seeing time savings through reduced paperwork and the elimination of redundant data entry.

Alicart's has been able to do more comprehensive back office operations analysis with Compeat Advantage. "The ability to track our entire inventory in real time has proven to be indispensable. Any variance in valuation can immediately be addressed." says Jennifer Roth, Executive Assistant for Alicart. "We use Compeat's eXcellent Financial Reporting to create a docket of meaningful

operational reports on payroll, sales trends, and COGS. We are now able to spend more time analyzing and less time processing," says Roth.

That's Amore is one of Wisconsin's premier Italian restaurants since 1981. Before they used Compeat, That's Amore used an older DOS accounting system that was outdated and no longer providing benefits. They purchased

Compeat Advantage in 2001 and have since added Compeat's

Payroll and Workforce modules. "I can honestly say I receive the same level of attention I got 13 years ago.

I don't know how today's restaurateur can compete without Compeat!" says Joe Lopiparo, Owner of That's Amore.

Compeat Advantage's inventory control and food cost analysis help Amore control costs and improve efficiency. "We build all of our recipes in Compeat and run inventory count variance reports on a weekly basis to track our center of the plate items," says Lopiparo. "This gives us a clear view of our inventory and allows us to react immediately to any issues that may arise. It also allows us to keep minimal inventory on hand."

and immediately reaped the benefits of having a fully-integrated system.

"Due to Compeat Advantage, we gained the ability to automate and streamline our processes through integration with our MICROS POS

system. This process allows for automated journal entries and saves significant time and effort." says Steve Garman, Director of Finance for Bartolotta. "Compeat provides greater visibility into the costs of operations and allows management the ability to drive behavior given comparable financial reporting."

Strizzi's Restaurant is widely known throughout the San Francisco Bay Area as the place to go for the flavors of Old Italy. Prior to Compeat, Strizzi's utilized Excel spreadsheets and Quickbooks to manage their restaurants. In 2007, Strizzi's implemented Compeat Advantage in their 6 restaurant locations and immediately saw benefits.

"Compeat saves us time in our daily accounting by allowing us to input our invoices once to update both inventory and accounts payable instead of entering inventory information into an Excel spreadsheet and then entering payment information into Quickbooks." says Tim Ludden, Vice President of Operations for Strizzi's. "By integrating with our POS daily, we have all of that data available to use on a daily basis. This allows us to get a P&L much faster than we ever were able to before."

Famous Italian restaurants such as **Alicart Restaurant Group, That's Amore, Bartolotta, Strizzi's, Il Mulino, Carlucci's, Matchbox, Bianchini, Casa Restaurant Group, Central Resto, Mandola's Italian Market, Broders Cucina Italiana, and Pasta Resources** all say BRAVO to Compeat!
