

BBQ THEMED RESTAURANTS SAY COMPEAT IS "DONE TO PERFECTION"

Some of the nation's most popular barbecue restaurants utilize **Compeat Advantage** to assist them in smoking up the most finger licking good barbecue in the nation. **City Barbeque, Bar 3 Bar-B-Q and Brewery, Fiorella's Jack Stack Barbecue, Corky's Ribs and BBQ, The Smoke Daddy, Dallas BBQ, Country's Barbecue, Wood Ranch BBQ & Grill, Brother Jimmy's BBQ, and 4Rivers Smokehouse** all utilize Compeat Advantage as their end-to-end restaurant management and accounting software.

City Barbeque is 100% devoted to the craft of barbeque and pride themselves in being a "True Que" with top quality meat, seasoned by hand and slow smoked by someone who knows their way around a pit. Prior to implementing Compeat Advantage, City Barbeque was using spreadsheets and Great Plains accounting and found themselves entering data redundantly into Excel and then again in Great Plains. They purchased Advantage in 2012 to eliminate redundant data entry and to capture data from Point of Sale, through operations, and on to accounting in one single system. "We purchased Compeat with the long term goal to enter everything one time and in one software and we're pleased to report that Compeat Advantage has allowed us to achieve that goal," says David Conley, CFO for City Barbeque.

Bar 3 Bar-B-Q and Brewery is known around Montana for their delicious BBQ and hand crafted brews. Before Compeat, Bar 3 was utilizing 3 different systems to operate their business. They would print the Z tape from their cash register and manually enter information into their Cheftec back office software and again into Great Plains accounting software. Bar 3 implemented Compeat Advantage in 2003 and now use it to manage their entire back office and accounting operations; as well as their commissary and catering business. They benefit from having a fully automated system that seamlessly

interfaces with their POS and enables them to see up to date information in real time. According to the Owner of Big Sky, Hunter Lacey, he can easily handle everything himself. "I got up this morning and did virtually all of last week's accounting including reconciliation in 1 hour!", says Lacey.

"I DID VIRTUALLY ALL OF
LAST WEEK'S ACCOUNTING
IN ONE HOUR"

Fiorella's Jack Stack Barbecue offers first-rate crown Prime short ribs of

beef and one of the best barbecue sandwiches in the Kansas City area. Prior to implementing Compeat Advantage, Fiorella's used a back office system that was not designed specifically for restaurants. Fiorella implemented Compeat Advantage in 2008 to run their entire operation including: their restaurants, a catering concept, an online ordering operation, and their commissary. They benefitted immediately from polling their POS information directly into Advantage.

BBQ THEMED RESTAURANTS

SAY COMPEAT IS “DONE TO PERFECTION”

(continued)

“The automated polling makes reporting turnaround so much quicker. We could not be more pleased with the time savings due to Compeat,” says Laura DeKam, Controller at Fiorella’s.

Corky’s Ribs and BBQ is committed to serving the world’s finest hickory-smoked ribs and BBQ by staying true to the Memphis heritage of BBQ greatness. Prior to Compeat, Corky’s relied on Excel spreadsheets to manage their back office and Great Plains for accounting. Corky’s implemented Compeat Advantage in 2007 and increased control over their inventory and back office operation immediately. “Compeat Advantage gives us the ability to identify exactly where inventory variances are occurring,” says Andy Woodman, CEO at Corky’s.

Dunlay’s Management Services operates several restaurants in the Chicago area including The Smoke Daddy, a must see rib joint in the Windy City. Before implementing Compeat Advantage, Dunlay’s was using spreadsheets and Quickbooks to manage their operations and accounting. Dunlay’s purchased Compeat in 2006 and have since seen benefits and money savings from Compeat Advantage’s inventory management capabilities. “As a large restaurant organization we transfer a lot of goods between our various restaurants. The simplicity of the inventory transfer feature allows us to buy goods in bulk and pass the savings on to the other locations,” says Jo Sanchez, Director of Finance and IT for Dunlay’s. Dunlays is also able to better handle their accounting and manage costs. “The Financial Reports help us manage each period and are great analytical tools when focusing on keeping our costs low,” says Sanchez.

“THE FINANCIAL REPORTS HELP US
MANAGE EACH PERIOD
AND ARE GREAT ANALYTIC TOOLS
WHEN FOCUSING ON
KEEPING OUR COSTS LOW”

So why have **City Barbecue, Bar 3 Bar-B-Q and Brewery, Fiorella’s Jack Stack Barbecue, Corky’s Ribs and BBQ, The Smoke Daddy, Dallas BBQ, Country’s Barbecue, Wood Ranch BBQ & Grill, Brother Jimmy’s BBQ, and 4Rivers Smokehouse** all benefited from Compeat Advantage? Like good barbecue, Compeat Advantage is done to perfection.
