

PAYROLL

Find yourself inputting payroll to your outsourced provider's portal on your only day off? Bartender lost their paycheck stub? Lost track of employee shortfalls, leaving no funds for insurance payment? Tired of overpaying for substandard payroll services and feeling like you are doing all the work? Having to manually track multi-store and multi-job employees tip credits?

Meet Payroll.

It's people's pay. It's their livelihood. It needs to be on time and it needs to be right. Restaurant payroll is complicated and no one does it better than us. We handle tip credits, multi-store and multi-job employees so you don't have to worry. We automate the process for our customers with POS Polling, embedded federal, state and local labor laws and even direct deposit and payroll check printing. Worried about filing 940, 941, SUI/SUTA, 8027, W-2 and 1094/1095? We got you covered. Our software considers Affordable Care Act, tip and minimum wage analysis and employee shortfalls receivables. Compeat Payroll does it all-as far as we know we are the only restaurant focused payroll vendor. Believe us-it makes a difference.

Need a full workforce management system? Combine Hire, Labor, Schedule and Payroll and make your life easier.

- > Print checks anytime anywhere
- > Report wages from multi-departmental employees
- > Drill-down payroll reporting down to check details, including payroll validation, 401(k), HR exports, and pay raise history
