

Server pulled a No Call/No Show? Have ten sticky notes from staff requesting time off? Jane wants to switch a shift with Bob but you are worried about overtime? You have pulled a double, it's 1am and you still need to do the schedule for next week? Employees clocking in early costing you dollars?

Meet Schedule.

Schedule, forecast, swap shifts, report and communicate smarter, faster and easier than ever with Compeat's Schedule. Owners, corporate office, managers and employees love Compeat Schedule. The benefits are endless and features are overflowing. Create and access schedules from anywhere, manage all time off requests and communicate with your rock star team with one click of a button- text, email- anyway you want it. Advanced overtime warnings and Affordable Care Act guidelines are built in intelligence, so you never have to think about them again.

Happy Managers = Happy Employees = Happy Customers = Happy Bottom Line.

Looking to manage theoretical vs actual labor costs?
Combine Labor and Schedule for dynamic duo.

- > Reduce labor costs by 3%
- > FREE Employee Schedule App and online portal
- > Integrated advanced scheduler with overtime warnings and Affordable Care Act guidelines for part-time and full-time employees
- > Create a schedule 75% faster
- > Employee and manager messaging center keep everyone up-to date
- > Integrated point-of-sale schedules for clock-in compliance and POS employee record creation and ongoing updates

"We've eliminated all written and verbal schedule requests, and no longer need to post schedules in the stores. Now, with the myWorkforce employee portal, our employees easily view their schedules and make changes from their home computers or mobile devices. This has saved our management a lot of time and headaches!"
